## LABOR'S SOLUTION OF LIVING COSTS

Given By Chief Engineer To  
House Committee—America  
For Industrial Freedom

(By Associated Press)  
Washington, August 6—Labor now demands that America become the home of industrial freedom as it has become the land of political freedom. Warren S. Stone, Grand Chief of the Brotherhood of Locomotive Engineers, said today before the house of the interstate committee, in support of organized labor plans for public ownership and private operation of railroads.

Declaring American democracy is controlled by an autocracy industry, Stone argued there could be no solution and no lowering of the cost of living as long as the consumers had to pay extortionate profits on their own earnings in purchasing the necessities of life.

Labor's belief in the Sims bill embodying the railroad employees plan for a solution of the Stone to be profound. In this plan, he said, the workers have raised the banner of democracy in control of industry and advanced to a new crusade in the faith of pilgrims. He said he spoke for 3,000,000 workers.

Stone also said labor might advocate a firing squad for profiteers and predicted America would see its worst period within a few months if Congress failed to find a solution of the high cost of living problem.

### Morrison Tells Labor's Aims Too

(By Associated Press)  
Washington, Aug. 6—When Frank Morrison, secretary of the American Federation of Labor, appeared before the Congressional committee today to advocate enactment of the Sims bill reorganization of the railroads, he also predicted labor would organize the United States Steel Corporation and establish an 8-hour day for its employees. Concerning the Sims bill, he said it embodied organized labor's plan for railroad reorganization on the theory they should be operated for public service rather than for private profit. He said at the outset the Federation stood behind the plan which he said meant squeezing water from railroad stocks and consequent reduction in living costs because the railroads then will not be compelled to earn dividends on millions of watered stocks.

### Steel Workers Strike

(By Associated Press)  
Butler, Pa., Aug. 6—Six thousand men struck at the plant of the Standard Steel Car Company here today for higher wages. Workmen at three other plants here have voted to take similar action.

### Shopmen Strike At Lexington

Lexington was hit by the general railroad strike yesterday when all of the union mechanics of the L. & N. shops, numbering about 40, and comprising boiler-makers, gasfitters, machinists, helpers and apprentices, quit work. Only the car repairers were left on the job. Most of the strikers at the L. & N. shops affiliated with the Covington union. Twenty-five machinists and car repairers in the C. & O. shops joined the strike this afternoon.

### Austrian Counter Proposals

(By Associated Press)  
Paris, Aug. 6—The Austrian counter proposals to the peace treaty were handed to the Supreme Council of the peace conference today.

### Smiths Entertain At Stanton

Prof. G. D. Smith conducted the Powell county Institute at Stanton last week. Miss Lillian Smith accompanied him and conducted the music. On Thursday, Misses Gladys and Georgie Smith went over and joined the others. In the evening they gave a delightful concert-entertainment which was much appreciated by an audience of good size despite the stormy weather. The program was one of a refreshing variety being composed of songs, ensemble numbers by all the members of the quartet, violin solos by Miss Lillian, readings by Prof. Smith and Miss Gladys. The posters advertising this entertainment listed it under the name of "The Merry-makers Quartet," and the people of Stanton agree that they lived up to their name.

### Will Try Kaiser In London

(By Associated Press)  
London, Aug. 6—Bulletin—The allies have not altered their decision to hold the trial of the former German Emperor in London. Andrew Bonar Law, the government leader, told the House of Commons today. No action could be taken, however, until the peace treaty is ratified.

### Embargo On Poultry

We have been notified by the railroad company that there is an embargo on all shipments of eggs and live poultry in carload lots and less to all points north of Cincinnati. Normal market conditions will not prevail until the railroad strike is settled. We would advise all merchants in the county to call us for prices each morning on all kinds of poultry and eggs.

## 14 RAILROAD UNIONS ASK HIGHER WAGES

(By Associated Press)  
Washington, Aug. 6—Bulletin—Representatives of 14 different railroad unions now have joined in asking Director General Hines for wage increases. As far as known, this is the first instance in which all railroad unions, representing 2,000,000 employees, have acted as a unit. Hines said he had no time to analyze the communication but it seemed the formal presentation of the wage demand had already been made public.

## WHY SHOES ARE HIGH

(By Associated Press)  
Washington, August 6—The Federal Trade Commission, reporting to congress today, declared high shoe prices are due to excessive profits. It charged the packers began pyramiding shoe prices by unwarranted hide price increases, the supply of which it is alleged they control. On top of this the tanners took exceptional profits, while shoe manufacturers demanded an unusual margin and retail orders charged prices that are not justifiable. The commission's report covered a four years' period, 1914 to 1918.

### Harris Will Issue No Pardons

Governor Black and Senator Chas. M. Harris, president protem, of the Senate, who will act as Governor when Governor Black goes away on his vacation, conferred at the Capitol and after the meeting Senator Harris announced that during the Governor's absence the pardon board books will be closed, as he considered the matter of pardons a prerogative of Governor Black. Governor Black will probably attend the meeting of Governors at Salt Lake.

### Alverson Sells His Paper

Mr. Jesse M. Alverson an old Richmond boy, sold his paper, the Georgetown News, to Lancaster Bros. of that place for \$10,000. It is understood he will retire from the editorial field to manage his large farming interest in Bourbon county. It is reported he made a handsome profit on his paper sale.

While trying to load a revolver, Alva Larue Lyons, 11 year-old son of Mr. and Mrs. Williams living on the Tate's Creek road, six miles from Lexington, accidentally shot himself last evening in the forehead, dying almost instantly.

## LANSING BEFORE SENATE COMMITTEE

(By Associated Press)  
Washington, Aug. 6—Secretary Lansing told the Senate Foreign Relations Committee today that the American League of Nations plan was not presented at Versailles and never presented in full to the peace conference. Lansing did not recall how the American plan differed from that eventually adopted but believed it was along the same general lines. He said the Shantung provision of the treaty was entered into by the American government without knowledge of the secret treaty between Japan and the allies for the transfer of the German concession in Shantung in Japan.

## GOVERNOR DECLARES FOOD IS TOO HIGH

Governor Black has named a commission to investigate the high cost of living. It comprises F. M. Sackett, W. O. Head and M. B. Kendrick, of Louisville; B. M. Hiatt, Midway; R. G. Wells, Pikeville; W. C. Montgomery, Elizabethtown; Judge W. F. Hall, Harlan; Mrs. Cora Wilson, Stewart, Frankfort; Mrs. Charles P. Weaver, Louisville; Captain J. Frank Hawn, Barbourville; A. B. Mercer, Martwick, and W. G. Duncan, Greenville.

The committee is "to ascertain whether or not there exists any combines of monopolies controlling or seeking to control the distribution of the necessities of life, and to ascertain and report what they may conclude to be proper remedy for the situation."

In a proclamation to the people of Kentucky, Governor Black says:

"There is no good reason, as I believe, to justify the enormous prices the people are being forced to pay for the necessities of life, such as clothing and foodstuffs. I have the impression that there exist combines, whose purpose has been and is to monopolize the distribution of the essentials, which enter into the needs of the people, and I know all such injustice."

Governor Black requests that all Commonwealth and County Attorneys of the state, assist the commission in the performance of the work.

## EMBARGO ON LIVE STOCK SHIPMENTS

Local Cattle Buyers May Be  
Hard Hit If Strikers Cause  
Railroad Tie-up.

With railroad machinists and shopmen threatening to strike all over the country, the railroads have declared an embargo on live stock shipments. Local cattle buyers were notified of the embargo has also been declared on shipments of eggs, poultry and other perishable stuff. Local poultry and egg buyers are notifying their customers of the emergency which has arisen.

So far a general railroad strike has not yet been declared, but the situation is becoming precarious, and there is no telling what may be the outcome. Associated Press dispatches tell of the demands being made by labor upon Congress for the enactment of a law, which will take the railroads out of private control forever, have them operated by the government under a profit-sharing basis with the workmen. It is a far-reaching innovation, and undoubtedly marks the coming of the crisis in railroad affairs.

Local stock buyers are being put to prospect of severe losses under the embargo for many have cattle contracted for delivery at once, which must be taken, and unless something is done at once their losses will be quite heavy.

The claim of the railroad workers is that under the present high prices, they are unable to pay living expenses at present wage scales and they are threatening wholesale strike to enforce their demands.

President Wilson and leaders at Washington are giving the matter most serious attention. It will be interesting to note what the present Congress will do in answer to the demands of the railroad workers.

## TO RECOMMEND PLANS TO CUT H. C. L.

(By Associated Press)  
Washington, Aug. 6—President Wilson will address Congress in person Friday to recommend legislation designed to aid in reducing the cost of living, it was learned today at the White House. Meanwhile agents of the Department of Justice has begun a hunt for profiteers, according to the Attorney General's order yesterday.

It is believed the President will ask Congress to put more teeth in existing laws. It is also suggested he might ask for a modified license system under which margins of profit could be controlled in order to bring immediate price reductions.

## ELECTION NOTES

Tom Cromwell, of the Cincinnati Enquirer, lost his reputation as a political forecaster. He predicted Carroll for Governor by 7,000 majority. This is said to be the first time his forecast has ever failed.

Judge John D. Carroll is still Chief Justice of the State of Kentucky and he came out of the primary election without a blot or stain upon his ermine.

For the first time the Democratic party has honored the mountains of Kentucky by nominating chosen son for Governor and he stands better with the mountain people than does his opponent, Ed Morrow.

Judges don't run very well for political offices, Judge Carroll and Judge Hardin are both illustration of this fact.

Looks like it may take the official count to decide a number of the contests for the minor offices. Col. Oldham's friends say that he still has a chance to win the lieutenant governorship, while Eubank thinks he has a chance too, to get the superintendency of public instruction.

If Judge Hardin had adopted the suggestion The News made to him not to accept the Chairmanship of the party Committee he would have been elected to Congress. The News took the position that a Judge ought not to be Chairman of a political organization.—Elizabethtown News.

## Faces A Serious Charge

Upon complaint of W. M. Stone, a farmer, living near Red House, a warrant was issued in the Madison Quarterly Court against Gardner Jones, a resident of Clark county, charging him with contributing to the delinquency of Stone's fourteen-year-old daughter, Maggie. It is charged that Jones went to a school house in this county, where the child was attending school, and took her to his home in Clark county, and is holding her there against the consent of her father.

## Big Wheat Crop Predicted

Washington, August 6.—In making public a statement today regarding the world wheat situation, Julius Barnes, head of the United States Grain Corporation, said that 1,000,000,000 bushels was assured.

He announced definitely that as far as he could see there was no hope for a price reduction in the near future, and that he would not sell wheat at a price below the guarantee.

Figures were given by Mr. Barnes

Before taking it, sometimes I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia. I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONAHAN, Mitchell, Ind.

on the world price as follows:

Average farm price to American farmers under guarantee, \$2.05 a bushel.

Average farm price in the United Kingdom during the last calendar year \$2.28.

Averaging farm price for four big producing countries—United States, Canada, Argentina and Australia—producing 1,500,000,000 bushels, \$1.95.

Average growers price (largely guaranteed) of Europe's 15 consuming countries, producing 800,000,000 bushels, \$3.75.

Average of all wheat growers weighted according to the size of their contribution to the total crop of the world, works out an average world-grower price of \$2.46.

Argentina wheat, with longer voyage and higher freight rates, Mr. Barnes said, costs, delivered in Europe, fully 50 cents more than American wheat delivered in Europe.

"We just mopped 'em up"

"Those boys didn't know what retreat meant. And, pep! Say, every mother's son charged as tho' he was the whole American Army. It was the proudest moment of my life."

More than 32,871,000 tins of Velvet Tobacco were sent to the boys in France—enough, if placed end to end, to reach 2340 miles or nearly from New York to Brest. How much it helped them, their friendly letters testify.

Velvet makes friends easily—because, like true friendship, it has been allowed to ripen naturally. For two years, Velvet ages in wooden hogsheads, and when it comes out it is just right—no kick, no bite, no harshness.

You and Velvet—begin that friendship now.

## Telephone Conditions

While the property has been properly maintained, it is not the same property which the government took over on August 1, 1918. It is not as adequate for its job or as well manned as it was. That it is not, is no way the fault of Federal control, which was eminently fair. It is due to causes for which neither the government nor the companies are to blame.

A year ago today we were at war. Labor and materials needed for both telephone operation and construction were turned to military uses. Some materials were so vital to the carrying on of the war that even the work of providing telephone facilities for the government was retarded and no part of them could be spared for commercial telephone purposes.

No less vital was the government need for those skilled to create, maintain and operate the vast intercommunication systems necessary in modern warfare and in the conduct of the vastly increased government services.

Thousands of telephone men were already at the battlefield. Thousands more were under arms, and still telephone experts and skilled operators went into the service of the government and contributory industries by the tens of thousands.

The reserves of plant and equipment were drawn upon until they were entirely used up, and the experienced staff was gradually depleted. To find others to take the places of those who had gone was difficult. To train them takes time.

During the year came the victory and the armistice; and instantly the business world sprang into intense activity. The demands for telephone service passed all former records.

To replace the exhausted reserves which had been carried for just such purposes and to replace the skilled forces to meet this unprecedented emergency, there began a rush for construction, for readjustment, for high pressure repairs, for feverish extensions. All these must be continued with increasing effort.

The return of the property comes in the very midst of this race between an overpowering demand, and an upbuilding of a system whose growth was held back and whose forces were scattered by the vital needs of war.

Much progress has been made in the upbuilding of this system, but far more is still required to meet the swift growth of business; and also to give "first aid" to every business and every other service struggling against an unprecedented demand.

The prosperity which creates this emergency in service creates also a scarcity of those desiring employment in the service.

Under such conditions telephone service generally has not been and could not be up to the pre-war standard. It is beyond human power to immediately overcome the handicap which the situation imposes.

There are no people in any public or private endeavor who are working more tirelessly or strenuously for the common good than those of the telephone companies. Service has always been given; more of it must be given and it must be improved. That improvement in some cases takes months. Eventually service must win the race with demand.

## Perfect Health Is Yours If the Blood Is Kept Pure

**Almost Every Human Ailment  
Is Directly Traceable to Impurities in the Blood.**

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force. By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an

opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 46 Swift Laboratory, Atlanta, Ga.

### GREAT MAJESTIC SHOWING ALL NEXT WEEK BEGINNING AUGUST 11th

The Majestic Man is coming. Our floors will be filled with these finest stoves on earth, and each day a BEAUTIFUL \$12.50 set of COOKING WARE will be given away free of charge with each Majestic that goes out of our store, during the week.

The merit of the Majestic was again proven this past year when the government of the United States contracted for 400 car loads of the Majestic Ranges.

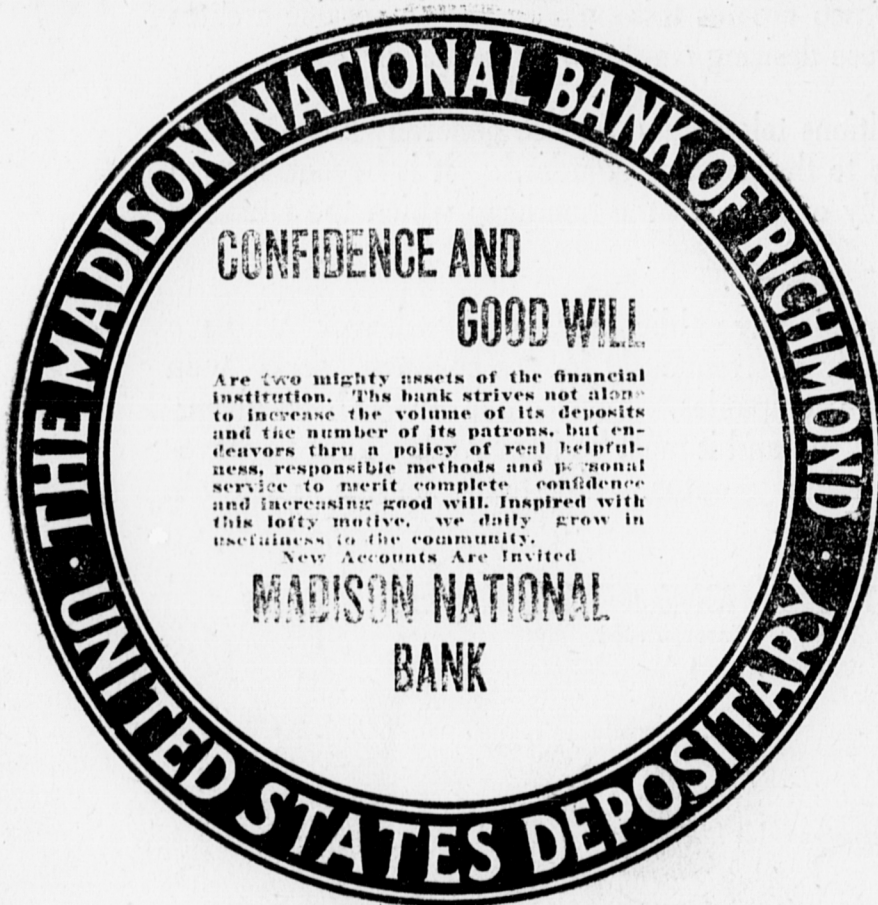

The body of the Majestic Range is of charcoal iron, which by actual test, resists rust, heat and crystallization 300 per cent greater than steel. The Majestic oven is made of heavy material, is riveted, (not bolted) to a malleable L or angle iron frame, making it practically air tight.

Don't economize too closely on the purchase price of a Range. Economy is not merely spending the least money; buying a range at too low a price is indeed false economy.

Above all—thoroughly examine the range you buy. A range bought from a printed description may be "exactly as represented," and yet not what you thought—you may be "getting your money's worth" and yet make a bad investment.

Come to our store next week and let the factory representative, who knows the MAJESTIC from a to z show you the many good qualities, and prove to you the advantage and saving in the long run of these King of all Stoves.
